Washington, DC 20530-0001

The current Microsoft settlement is a very bad idea. Microsoft has postponed and delayed the proceedings to the point that the original Internet browser case will be far overshadowed by their .NET initiative which will make the monopolistic tendencies shown in the Netscape case like a springtime daisy. Microsoft must be broken down to prevent it from becoming the defacto arbiter of all activities on the Internet and our economy. Microsoft is bad. Breaking up Microsoft is good.

Thank you,

Donald J. Moore
